Bridgefield Home Security.

At Bridgefield, we value our community and want each resident to feel safe at all times, day or night. Discreet community surveillance cars will ensure Bridgefield's streets remain secure leaving residents free to enjoy a friendly neighbourhood environment. Additional options will also be available for enhanced security features to suit each individual resident and their Bridgefield home's needs.

Access Automate.

Access Automate PTY LTD, established in 2017 offers a wide range of services these include but not limited to, security alarm systems, IP intercoms, IP CCTV security cameras, home automation and integration, automatic gates and doors, access control and electrical engineering services.

The Access team are highly qualified, skilled technicians and engineers dedicated to provide the best possible service.

Access Automate has arranged a comprehensive electronic security package to ensure that your home remains safe and secure whether you're home or away.

The package features the following for supply and installation:

1x Bosch Solutio 2000 alarm panel or Paradox SP5500
(subject to availability)
3x PIR sensor
1x Outdoor siren
1x Indoor siren
1x Keypad
1x Audio and video intercom system (analogue)

Each Access Automate package comes complete with an 18 month manufacturers warranty on all security alarm and intercom systems, and a 6 month warranty on all labour.

Installation.

In order for your complete Access Automate system package to be installed, follow the steps below:

1. If you require any additional services or require further information please contact Access Automate directly on 0484 572 988.
2. Provide written notice to: alarms@accessautomate.com.au upon completion of pouring the slab.
3. Advise your builder that Access Automate will require access to your property;
 - In order to run wiring and cabling and any other works prior to plastering
 - Again, at fit off to complete the security installation
4. Once the security system is installed, you as the home owner are wholly responsible for any repair, maintenance and monitoring requirements.

Please note: additional costs will payable by the purchaser in the event the builder doesn't permit Access Automate access to the site as required.

In order to avoid additional costs the lot purchaser / homeowner MUST contact Access Automate during three stages.

1. Before or at the time of the slab being poured, to allow Access Automate to plan ahead.
2. Prior to insulation and plaster to enable Access Automate to accurately organise and task technicians to carry out rough in for the alarm package. At least 7 days notice is required.
3. After handover, once the alarm has been fitted and programmed, the occupants will be oriented on how to use their security system and set a new 4 digit pin code for their new alarm system.

Please note: additional costs will apply if a purchaser fails to adequately notify Access Automate of building progress or should they wish to have the system installed after the walls have been plastered.
